

ANTARCTIC RECORD No. 85

CONTENTS

Scientific Papers

- Statistical studies of snow accumulation and snowfall in the coastal and katabatic areas of Antarctica —Observations at Syowa and Mizuho Stations in 1979 and 1980—..... *Makoto Wada*..... 1
- Biomechanical study on man's adaptation to cold —Comparison of the outfit of JARE and Eskimos in heat insulation and physical activity— (in Japanese)..... *Kazuhiko Watanabe and Kei Terai*..... 12

Review

- Outlook of ice excavation techniques (in Japanese)..... *Yosio Suzuki*..... 24

Reports

- Antarctic Middle Atmosphere Project at Syowa Station
..... *Hiroshi Fukunishi, Takeo Hirasawa and Sadao Kawaguchi*..... 39
- Auroral sounding rocket experiment of the 26th Japanese Antarctic Research Expedition: Mission plan *Hisao Yamagishi and Hiroshi Fukunishi*..... 48
- Plan for lidar observations of the polar middle atmosphere in the 26th Japanese Antarctic Research Expedition.
..... *Akio Nomura, Yasunobu Iwasaka, Hiroshi Fukunishi, Tetsuo Kano, Takeo Hirasawa and Sadao Kawaguchi*..... 62
- The telemetry reception of EXOS-D satellite at Syowa Station (in Japanese)
..... *Takeo Yoshino and Hiroshi Fukunishi*..... 68
- A present condition and future plan of communication network at Antarctica (in Japanese) *Takeo Yoshino and Hiroshi Fukunishi*..... 84
- External measurements and organ weights of five Weddell seals (*Leptonychotes weddelli*) caught near Syowa Station *Yoshihiro Fujise, Hideo Hidaka, Ryo Tatsukawa and Nobuyuki Miyazaki*..... 96
- Report on the BIOMASS-oriented research at Syowa Station in 1982 (in Japanese) *Mitsuo Fukuchi, Atsushi Tanimura, Hideaki Ohtsuka and Takao Hoshiai*.....102
